

IMPROPER FRACTIONS

Common Core Standard A-REI 2 – Solve simple rational and radical equations in one variable, and give examples showing how extraneous solutions may arise.

Verse 1

We about to make a mixed number improper
Just multiply the whole number times the bottom
Then add that to the number on the top
And an improper fraction is what you got
Now remember playa, keep that denominator
And all that work you did is your numerator
Now let's try it out, here we go, we can't stop
Covert $2\frac{3}{5}$ show me what you got
2 times 5, yep the answer's 10, then add 3...13, let's put it in
The numerator and 5 is your denominator
 $13/5$ you know it's right when the top is greater
And the top is greater, so your work's complete
And if your answer's right, stand to your feet
Put your pencils up, get a standing ovation
Now look at you, a true math sensation

Chorus

Mixed to improper, improper to mixed
If you wanna learn it do it just like this
Mixed to improper, multiply and add
Improper to mixed, divide and subtract
Yeah, I'm learning my math
I used to be bad, now I can pass
Yeah, I wanna be successful
Just like Drake I wanna be successful

Verse 2

Now let's make an improper mixed, c'mon do this example: $20/6$
Listen to this: I N F O. Just divide the fraction use N I D O
Set up division problem with a little house
Numerator inside, denominator out
How many times does 6 go into 20?
3 times and your remainder is 2
Your denominator was six so write it like this: $3\frac{2}{6}$
3's the whole number so you write it big
2 was your remainder kids
6 was the denominator so it stays the same
Just remember that the bottom number can't change
I wanna learn this so I can get a good grade
Imma try my best, make sure that I behave
So I can culminate and walk across the stage

Chorus

Bridge

I can do it I'm the best, I will never stop
Imma keep climbing til I reach the top
Top of my class, I know I'm gonna pass
I can multiply, divide, add, and subtract
Check my paper, I double checked my paper
So I know it's correct, I study hard for my test
I like the feeling of success
Mama put this on the 'frigerator, I'm proud of my paper
