### Verse 1

1 x 5, the answer's 5  
Say, "I can learn anything if I try"  
2 x 5, the answer's 10  
And this the math man and I'm at it again  
3 x 5 and that's 15  
I can learn math, I can learn anything  
4 x 5, that one's 20  
In class I'm the opposite of what? Silly  
5 x 5, that's 25  
I can multiply, I deserve a high five  
6 x 5, that one's 30, yeah  
I wake up thinkin' 'bout math early  
7 x 5 is 35  
Why? 'Cause I added up 5 seven times  
8 x 5, that one's 40  
Multiplying on flash cards, boring

### Chorus

5, 10, 15, 20
